

MARCO BAZZINI - ANGELO GHIRETTI

RITROVAMENTI MONETALI MEDIEVALI (X-XII SEC.)
NEGLI SCAVI ARCHEOLOGICI SUL MONTE CASTELLARO
DI GROPPALLO (COMUNE DI FARINI, VAL NURE, PIACENZA)

Abstract

During excavations at Groppallo di Farini (Piacenza) three medieval coins have been found: one denaro of Pavia dating to the 10th century and another denaro of Pavia dating to the 11th century. The third coin is a half denaro of Piacenza of 1140-62, and it is the first known specimen although this denomination is recorded in written documents. The coins are considered in the context of monetary circulation in the area in the 11th-12th centuries.
